 - 7 LOIs for children and 14 for adults
- Service for all ages
- \$100.00 monthly stipend offered, per client
- Emphasis on social skill training for children - 028
- Emphasis on community outings for adults - 055

Behavior Services

- **Primary Source of funding is insurance:**

- **•IEHP** – Consumers who have who are requesting ABA/BHT services IRC will no longer need to have their documentation faxed to IEHP. Instead:
 - •1) IRC CSC to direct the consumer’s parent to contact their child’s Primary Care Physician (PCP).
 - •2) The Primary Care Physician (PCP) will refer the consumer for a CDE (Comprehensive Diagnostic Evaluation).
- **•MOLINA** – You will need:
 - •1) email BHT referral request to Robert Mendes at Robert.Mendes@MolinaHealthCare.com or Sandra.Graham-Hendricks@MolinaHealthCare.com.
 - •2) A MOLINA Release of Information form signed by the parent.
- **•Kaiser Permanente** – Family will need to phone Kaiser directly to request services. They do not typically require IRC CSC to send over any documentation.
- **•Heath Net** - to refer a new case to Health Net: For all HealthNet members who need support under Molina.
 - •1) The member's parent contacts the MHN Service Team at 888-935-5966. They will be assisted immediately 24 hours a day 7 days a week.
 - •2) Once HealthNet has what they need, from the parent (again this is explained by the service team) a ACCM will outreach for intake.

- **IRC will fund Co-pays:**

- **Parents:**
 - 1) Consent for Release of Information forms (ICRC202).
 - 2) SB946 letter requesting assistance.
 - 3) A copy of **all** insurance cards
 - 4) Current copy of documents certifying income and family size **within 30 days of the request.**
 - 5) A copy of the consumer's Summary of Benefits from the insurance company and a Treatment Authorization form are needed.
- **CSC:**
 - 1) Document the parent request in the IPP/35c/or IPP Addendum/T19.
 - 2) Review request with your Program Manager.
 - 3) Family **not** eligible, possible exemption.
 - 4) Send to Behavior Services Technician for processing.
- **Behavior Specialist Technician:**
 - 1) Annual re-assessment.
 - 2) Present cases to Director for approval; when applicable.
 - 3) Contact vendor.
 - 4) Input POS into SANDIS and first level.
 - 5) Contact families as needed.
 - 6) Documentation to scanning.
 - 7) EOBs from vendors and payment of invoices.
 - 8) Work with RDTU if provider is not vendored with IRC.

Crisis Services

- Services requested by SC in consultation with IRC Behavior Health Team
- Uplift Family Services
- Towards Maximum Independence
- Line of Hope
- Chudler

Clinical Services

- Clinical Review meets every Monday at 1:30pm.
 - Recommendations/referrals are given following the team discussion.
 - Supporting documentation - i.e. generic/insurance denial, invoice, reports, etc.
 - Service request to be addressed via IPP. Follow-up addendum IPP, once service has been approved.
- **Services Offered:**
 - Consultation
 - Pharmacy Request/Medication Review
 - Dental Services
 - Occupational Therapy
 - Physical Therapy
 - Nutritional Evaluation
 - PRUCOL
 - SAC Clinic
 - Durable Medical Equipment

Medicaid Waiver

- Center for Medicaid and Medicare Services (CMS) – federal funding agency
- HCBS Waiver – federal funds to states to provide community based (inclusive) services to people with ID/DD
- Qualifiers: Medi-cal eligible, 2 deficits on CDER, sign the DS2200 and have a billable POS

Institutional Deeming

- When there is no Medi-cal insurance
- Allows a child to become eligible for Medi-cal benefits
- Waives the parent's income, thus relying on the child's income to qualify.
 - Secondary benefit is that it opens the door to In-Home Support Services
- Family Role:
- Complete initial and yearly application for Medi-cal
- Keep a billable POS
